Geometric Dimensioning and Tolerancing (GD&T) is a language of symbols and standards designed and used by engineers and manufacturers to describe a product and facilitate communication between entities working together to produce something.

[GD&T Geometric Dimensioning and Tolerancing](#)  
Geometric dimensioning and tolerancing (GD&T) is a system of symbols used on engineering drawings to communicate information from the designer to the manufacturer through engineering drawings. GD&T tells the manufacturer the degree of accuracy and precision needed for each controlled feature of the part.
